

East Mississauga Midwives is seeking General Registrants to join our practice in either a [part-time](#) or [full-time](#) role!

Caseload has already been built for the following positions:

Part-Time Rotation:

- 1 week on-call attending births and postpartum visits
 - 2 clinic days during the on-call week
- 3 weeks off-call
- 18 BCCs per year (3-person team books 6 clients a month (1 FT/2 PT))

Full-Time Rotation:

- 1 week on-call attending births and postpartum visits
 - 2 clinic days during the on-call week
- 1 week off-call
- 36 BCCs per year (2-person team books 6 clients a month)

We are looking for a midwife to start ASAP *but if your timeline or workload preference is different than described* - please reach out - we have flexibility to negotiate to accommodate the right candidate!

East Mississauga Midwives is a well-established practice of 8 midwives, most of whom have practised for 10+ years. Our practice is extremely supportive of mentorship and work/life balance. We have a high rate of client, student, and midwife satisfaction! We have many repeat clients. Our practice meetings occur once every 3 weeks and we use Oscar EMR. We have a back-up contingency on-call system which is relied upon a few times per year when all on-call midwives are unavailable due to simultaneous work duties or illness.

We are located in the GTA - 30 mins from downtown Toronto and Hamilton - our midwives have resided in areas surrounding our catchment such as Oakville, Rexdale, and West Toronto. Our practice serves a growing and diverse population including many new immigrant/refugee families and those without OHIP.

We have privileges at Trillium Health Centre - Mississauga Site. A new hospital (to be the largest in Canada!) is in development with midwifery input for the birthing unit. We work in a full-scope setting and manage oxytocin and epidurals. We are fortunate to have excellent inter-professional relationships within our community. Currently, our OB consultants manage the cervical ripening process for inductions of labour. We use EPIC healthcare software.

Interested applicants should email their CV and letter of introduction to amy@themidwifeclinic.ca
