

Client Consent and Release for Email Communication

We are now able to offer the use of email for:

- Appointment reminders
- Sharing routine test results
- Sending you forms for tests (labs, x-ray, ultrasound etc.)
- Giving you educational and health promotion resources
- Clinic Newsletters
- Client satisfaction surveys
- Verifying your contact information
- Asking for health card information
- Sending you our policies

Please read to the bottom of this page and the next page to submit your consent. If you would like to receive our emails, please update your address book to accept emails from info@themidwifeclinic.ca and don't forget to check your junk/spam folder.

There are some limits on what and when we can email you, which we will explain here:

- Email communication is not a substitute for meeting with your healthcare provider. Although technology is changing, the best way to share information with your health care provider is in person.
- Please tell us which email address you wish us to use. You must keep this up-to-date and tell us of any changes to your email address.
- Email should never be used in an emergency. If you have a health emergency, you should page your midwife, **call 9-1-1** or go to the nearest hospital.
- Email should never be used for urgent problems (where you need a response from us by a certain time). If you have an urgent issue, you should page your midwife or make an appointment to see your midwife by calling the office.
- We do not read our email messages 24 hours per day 7 days per week. We cannot guarantee any particular response time for an email. If you require a response, please call the office.
- Emails should be short. If you have a problem that is complex – please call the office instead.

You should not use email to tell us about sensitive health information. Please tell us if there are certain issues or types of information that you do not wish to discuss by email.

There are some privacy risks in communicating by email:

- Email may not be secure. While we try to protect our emails we cannot guarantee the security and confidentiality of any email you send to or receive from us. As the message leaves the midwifery practice group it is sent across the internet and it could be intercepted and read.
- More than just your midwife may need to read your email. Administrative staff supporting your health care provider and people providing coverage for your health care provider (like a locum midwife) may also read any email you send.

Client Consent and Release for Email Communication

- Emails may be filed on your health record depending on the content of the email message and can become a permanent part of your health record. As part of your record, emails may be shared within our team or third parties, with your consent or if we are permitted or required by law (including with other health care providers and insurance companies).
- Email is easy to forge, easy to forward (sometimes accidentally and to many people) and may exist forever.
- We recommend you give us a personal email address that only you read. We recommend that you use an email address and system that is password protected. If you give us a family email address or share your email address with anyone else, you should know that other people may also receive or read emails we send to you. If you use a work email address, your employer may have a right to archive and look at emails sent from their systems. We recommend you avoid using a work email address.
- East Mississauga Midwives is not responsible for information loss due to technical failures.
- East Mississauga Midwives may choose not to communicate with you by email if you are not able to follow our email rules.
